

WATERPROOF LASERS (Pro Series)

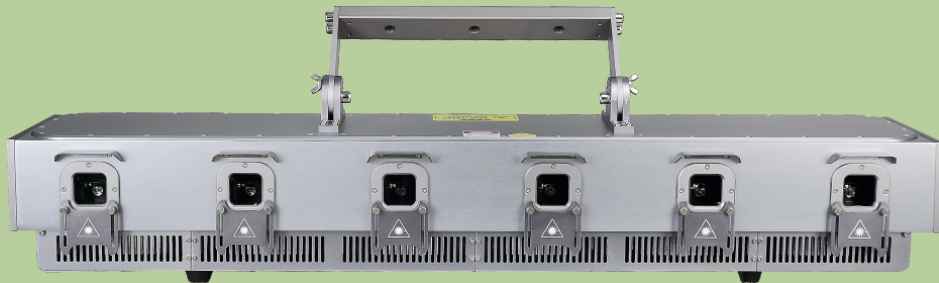

Model	Description	Configuration
ANILAZO-L18-IP	18W Outdoor animation laser bar	W3000mW(R700+G900+B1400)x6
ANILAZO-L12-IP	12W Outdoor animation laser b	W2000mW(R500+G500+B1000)x6

1. Used for outdoor six-head laser light, IP65 structure waterproof, moisture-proof, dustproof.
2. Suitable for outdoor large stage performance, also can make light curtain, light net and other special effects.

PRODUCT PARAMETERS

- Rated voltage: AC100~240V 50/60Hz;
- Power consumption: 400W
- Modulation: analog
- Scanner: 40kpps x 6pcs
- IP rate: IP65(outdoor)
- Control mode: automatic/DMX512/ master-slave
- Channel:27/121 ((default)/157CH (individual control)
- Demonstration effect: built-in 160 pattern(8 groups x 20 cues)
- Control Interface: Waterproof DMX512 interface
- Control technology: (1) RDM data bidirectional transmission (2) temperature control system (3) DMX512 upgrade
- Operating requirement: dry, less dust, -10 ~ 35°C (environmental temperature), will reduce the attenuation of the diode and extend the life of the light.
- 1 in1 packingsize: 120*35*30cm
- N.W./ G.W.: 28/32kg

OUTDOOR ANIMATION LASER BAR
