

WATERPROOF LASERS (Pro Series)

OUTDOOR WATERPROOF RGB ROTATION LASER 60W/50W/30W

Outdoor rotating laser is not only an outdoor high-power laser light with IP65 protection level, but also has the most widely used angles and special effects in landmark demonstrations in buildings, mountains and other large venues. The stepping motor precisely controls the X-axis rotation angle of 540°, and multiple units can be rotated synchronously by DMX signals. The Y-axis angle can be manually positioned. With the XY 60° angle of the galvanometer itself, the light can fully cover the surrounding area of the fixture.

Model	Description	Configuration
ANILAZO-MHO-RGB60	60W RGB Outdoor rotation laser	R635-16W/G525-18W/B465-26W
ANILAZO-MHO-RGB50	50W RGB Outdoor rotation laser	R635-14W/G525-16W/B465-22W
ANILAZO-MHO-RGB30	30W RGB Outdoor rotation laser	R635-8W/G525-10W/B450-12W

PRODUCT PARAMETERS

- Rated voltage: AC100~240V 50/60Hz
- Power consumption: ≤850W
- Scanner: 40kpps landmark scanner, scan angle: max±30°; Input signal: ±5V; linearity distortion <2%
- Modulation: analog
- Beam diameter and divergence: 8*6.5mm; 1.2mrad
- Control mode: automatic/DMX512(4CH/15CH/27CH)/master-slave/ethernet
- Control interface: Waterproof DMX512 interface, waterproof ethernet
- Rotation: X axis 540°
- IP rate: IP65 (outdoor)
- Application: cityscape, architectural landmark, laser show, advertising promotion, etc.
- Size: 75*72*79cm
- N.W./G.W.:80kg/120kg
