

# LED PROFILE 300W FIX

www.lbtpro.com / info@lbtpro.com

- 300W COB white LED
- 19° Manual Zoom
- IP20

The profile 300 is the most powerful shaper of the new Led profile series. It mounts a 300 watt warm white 3200K LED with high light output. The Cooling Shaper uses the latest intelligent fan technology, making it extremely quiet.

Thanks to its technical characteristics, greater light output and extreme practicality, it is ideal for replacing old halogen profiles. Suitable for all theatrical, museum, congress or live events.
