

RGB ANIMATION LASER 5W/10W

- www.lbtpro.com / info@lbtpro.com
- 5W/10W RGB Animation Laser
 - ILDA Supported
 - AC100-240W
 - High Speed Scanner

Model	Description	Configuration
LBT-W5000	5W RGB Animation Laser	R635-1.2W/G525-1.4W/B450-3W
LBT-W10000	10W RGB Animation Laser	R635-3W/G525-3W/B450-4W

Product Parameters

1. The most cost-effective and hot sale laser lights, most of the trendy night clubs in India agree to choose Light ful laser, they have the best effect and super stability, shining in the night of countless cities.
2. Spare no effort to develop and build products. The earliest patented manufacturer of double-layer chassis structure in India can effectively prevent oil fume and improve heat dissipation efficiency, thereby ensuring that the laser light can be used for a long time.
3. The mature product design and production process ensure the uniform brightness, uniform color and uniform dimming characteristics which can meet everyone's experience standards.

Rated Voltage : AC100~240V 50/60Hz; 250W

Scanner : 40kpps fast scanning system,

Scan Angle : max ±30°;

Input Signal : ±5V

Modulation: Analog

Beam Diameter and Divergence : 3*6.5mm; 1.5mrad

Control Mode : Sound, Auto, Master-Slave. D<X512(27/52CH), SD Card, ILDA

Demonstration Effect: built-in160 pattern, SD Card unlimited storage.

Control Interface : 3 Pin DMX512, 25DB ILDA, EASY ILDA

DMX Effect : Double Pattern Mode with function of unique blanking, strobe, rotation, movement, zoom, write in, speed and color etc.

Control Technology:

- (i) RDM data bidirectional transmission
- (ii) SD card online upgrade
- (iii) Temperature control system
- (iv) DMX512 upgrade

Operating Requirement: Dry, Less Dust, 0~35°C

(environmental temperature), will reduce the attenuation of the diode and extend the life of the light.

Application:

Disco, Club, Medium Indoor Venue, Theatre etc.

Size (2in1); 60x43x37 cm

N.W./G.W : 23/28Kg.
